

FIVE THINGS YOU CAN DO TO HELP WVDL HELP YOU

1. **Make sure we have your email address** to facilitate delivery of test results to you.
2. **Use the current versions of all WVDL forms.** Request them or get them off our website. Please destroy your old forms.
3. **Make sure all required fields on submission forms are filled out.** We need this info to process your requests without delays.
4. **Choose the tests you request with care.** It is not uncommon for incorrect tests to be ordered, necessitating a phone call. For example, canine brucellosis serology is obviously not testing for *Brucella abortus* .
5. **Johne's Serology Submitters:** Use ONLY **13 X 100 mm red top tubes** to collect your samples. (Our automated machines don't like other sizes as well.)
