Specimens Submitted

☐ Whole Body ☐ Head ☐ Fetus ☐ Placenta ☐ Brain ☐ Heart ☐ Intestine _____ ☐ GI Contents ☐ Kidney
☐ Liver ☐ Lung ☐ Spleen ☐ Lymph Node _____ ☐ Blood ☐ Serum ☐ Feces ☐ Urine ☐ Feed

Other _____

Remains*

☐ **Incineration / Digestion / Rendering / Composting.** WVDL will determine the method based on current regulations and guidelines.

Cremation - ☐ Trusted Journey ☐ Camelot Cremation

The chosen cremation company will contact the owner directly to make all arrangements. Other cremation options may be used; WVDL does not ship remains to crematoriums, remains must be picked up by the company.

Signature REQUIRED For Rendering: Barbiturate Residue Zero-Tolerance Policy

Chemical drugs, such as pentobarbital, used to euthanize large animals may survive the rendering process and be present in finished rendering proteins and fats. Therefore, existing federal FDA regulations and vendor policies prohibit the use of barbiturates for euthanasia of animals disposed of by rendering or landfill. By signing below, I assume fiscal liability for barbiturate contamination of rendered product resulting from incomplete or inaccurate reporting of barbiturate use in the submitted animal.

Submitting Veterinarian's Signature* _____

*Signature indicates that specimen(s) were collected by or under the supervision of the signing veterinarian. Please visit our website for our submission guidelines.
